## PROFILE

Full Stack Developer experienced in building modern, responsive and scalable web applications. Strong hands-on experience with React.js, Next.js, TypeScript, Redux, Tailwind CSS and REST API integration, with working knowledge of Node.js, Express.js and MongoDB. Experienced in production applications, reusable UI systems, enterprise workflows, multilingual interfaces and performance-focused development.

## PROFESSIONAL EXPERIENCE

### Zangula

Full Stack Developer | March 2026 – Present | Remote

- Develop and maintain production web applications using React.js, Next.js and TypeScript.
- Build responsive, reusable UI components and data-driven workflows with REST API integration.
- Contribute to Perix, an enterprise CMMS/CAFM platform covering assets, work orders, maintenance plans, vendors, locations and technicians.
- Implement hierarchical location workflows, asset lifecycle features, QR codes, work-order management, dashboards and operational reporting.
- Work on Hebrew RTL support, file workflows, exports, rich-text interfaces and scalable frontend architecture.

### Freelance / Upwork

Full Stack Developer | 2024 – February 2026 | Remote

- Built responsive web applications using React.js and modern JavaScript/TypeScript.
- Translated UI requirements into reusable interfaces and integrated APIs for dynamic application workflows.
- Collaborated on backend-connected features and delivered optimized web experiences across browsers.
- Delivered independent client projects through Upwork.

## EDUCATION

### Master of Computer Applications (MCA)

Shoolini University | 2024 – 2026

### Bachelor of Computer Applications (BCA)

Himachal Pradesh University | 2021 – 2024

## PROJECTS

---

### Perix — Enterprise Facility & Asset Management Platform

Multi-tenant CMMS/CAFM platform for managing facilities, assets, work orders, maintenance, technicians and vendors. Worked on key modules including Assets, Work Orders, Maintenance Plans, Vendors and Locations, with QR codes, dashboards and Hebrew RTL support.

**Tech:** React 19 · TypeScript · Vite · Redux Toolkit · Redux-Saga · Tailwind CSS · Axios · REST APIs · TanStack Virtual · Radix UI · Floating UI · Recharts · Chart.js · Tiptap · Quill · XLSX · React PDF · react-qr-code · i18next

### Zangula Website

Corporate technology website with an SEO-focused blog and article experience. Built responsive article pages and content sections with structured, multilingual frontend experiences.

**Tech:** Next.js · TypeScript · Tailwind CSS · API Integration · i18n

### TrendOra — Smart Shopping Platform

Developed a modern e-commerce experience focused on smart product discovery, fast delivery, exclusive discounts and secure checkout. Built responsive interfaces and reusable UI components with a clean, user-focused shopping flow.

**Tech:** Next.js · React.js · Tailwind CSS · Framer Motion

### Kavix — Financial Insights & Investment Platform

Developed a content-driven financial insights platform focused on researched market stories, businesses and long-term investing. Built responsive frontend sections and structured content interfaces for articles and investment-focused information.

**Tech:** React.js · Next.js · TypeScript · Tailwind CSS

### DigiPharm — Content & SEO Platform

Worked on frontend interfaces for a content and SEO-focused platform supporting links, publishing, optimization and structured content workflows.

**Tech:** React.js · TypeScript · API Integration
